BRAND & DESIGN SYSTEM

# Local Media Gallery

## Slogan

Your media presented beautifully.

## Short description

A lightweight, interactive gallery for browsing local images and videos.

A ShruggieTech project · Version 1.0.0 · Canon 2.1.0 ·

BRAND ESSENTIALS

# Local Media Gallery

APPROVED NAME Local Media Gallery

**Relationship:** A ShruggieTech project

### WRITTEN FORM

Write Local Media Gallery as the name; use localmedia.gallery only as an address.

PARENT ShruggieTech

REGISTER plain-helpful

### APPROVED WORDS

The exact approved words and role labels appear on the cover.

### VISUAL SIGNATURES

Use the exact delivered masters described on the Logo system sheet. Formal colors and their measured uses are on the Color sheet. Display Space Grotesk, body Geist, and mono Geist Mono are the declared type families.

**Where each asset belongs:** The Asset catalog lists verified marks, lockups, icons, and platform deliveries by intended surface and size.

### USAGE LIMITS

Keep delivered artwork geometry unchanged. The Logo system sheet gives measured sizes and clear space.

**Mark:** Use the larger icon beside Local Media above Gallery. Preserve the supplied hierarchy and proportions. Keep the domain for address use.

**Color:** The formal identity uses Jade on dark surfaces and Deep Jade on light surfaces.

LOGO SYSTEM

# Marks and lockups

Use the larger icon beside Local Media above Gallery. Preserve the supplied hierarchy and proportions. Keep the domain for address use. Mark means symbol; wide and stacked lockups are separate. Clear means transparent; light and dark name the viewing surface. See Asset Language in the main manual.

## Clear space

One clear-space unit on every side: 100 units on the 1000 × 1000 canvas, 12.9 percent of artwork width. No text, border, icon or crop enters that band.

MINIMUM SIZE

| | |
|---|---|
| mark | 16 px |
| horizontal | 200 px |
| stacked | 160 px |
| wordmark | 160 px |

Below 32 px the reduced master takes over. It ships as its own file. Do not rasterize the full mark down at runtime.

## Fixed lockup proportions

| LOCKUP | MARK HEIGHT | GAP | ALIGNMENT |
|---|---|---|---|
| Horizontal | 160 units | 36 units | Optical center |
| Stacked | 4.00C | 0.65C | Centered on wordmark ink width |

The horizontal row records its approved master composition. C is the outlined wordmark cap height used by the stacked lockup. X is the clear-space unit declared above. Keep one X clear around every master and never resize the mark and wordmark independently.

COLOR

# Palette

The formal identity uses Jade on dark surfaces and Deep Jade on light surfaces.

## Role colors on dark surfaces

primary
#69D4BB

brand-accent-deep
#08745F

brand-emphasis
#F2BE6E

destructive
#F39494

## Neutrals, dark surfaces

background
#10151E

card
#161D29

secondary
#202B3B

border
#262626

### LIGHT READING SURFACE

primary
#08745F

background
#F3F5FA

muted
#DFE5F0

muted-foreground
#526078

### LIGHT SURFACES

The bright accent #69D4BB measures **1.64:1** on the light reading surface and is never text there. The light token block substitutes #08745F at 5.24:1 automatically. The legal foreground on an accent fill is #000000 at 11.74:1. Every fill token in brand.json carries its measured foreground.

### SEMANTIC USE

| COLOR | MEANS |
|---|---|
| Accent | Primary value, selection, links, focus |
| Emphasis | Needs attention, threshold exceeded |
| Destructive | Failed or timed out. Always with text. |

### COLOR VISION

The emphasis and failure colors may not be reliably separable under deuteranopia. That is acceptable only because state is never carried by color alone: every state ships a written label.

COLOR

# Chart colors

Chart colors serve data visualization. Brand applications use the identity accent and the neutral surfaces. Each chart color is derived from the identity accent and measured against its surface so every entry clears 4.5:1.

chart-1
#69D4BB

chart-2
#B0C982

chart-3
#75CAEF

chart-4
#E5B375

chart-5
#B1B7FC

## CONTRAST CHECKS

Lightness is calculated separately for dark and light surfaces. Data charts also use labels or shapes; hue alone does not carry meaning.

## THE SAME PALETTE ON THE LIGHT READING SURFACE

chart-1
#08745F

chart-2
#5B6B30

chart-3
#1C6D88

chart-4
#825A26

chart-5
#585E93

## DERIVED VALUES

| SERIES | DARK | LIGHT |
|---|---|---|
| chart-1 | #69D4BB | #08745F |
| chart-2 | #B0C982 | #5B6B30 |
| chart-3 | #75CAEF | #1C6D88 |
| chart-4 | #E5B375 | #825A26 |
| chart-5 | #B1B7FC | #585E93 |

## RULES OF USE

Series order is fixed: chart-1 is always the primary measurement. Never reorder to make a chart look better. Never introduce a sixth color; past five series, switch to a form that does not depend on hue. A series never uses the semantic emphasis or failure colors, because those carry state.

TYPOGRAPHY

# Display, interface, code

Local Media Gallery uses three approved type families. Space Grotesk handles display text, Geist handles interface and reading text, and Geist Mono is reserved for literal command blocks.

## Your media presented beautifully.

A lightweight, interactive gallery for browsing local images and videos.

### ROLES

| FUNCTION | TYPEFACE | WEIGHTS |
|---|---|---|
| Display, headings | Space Grotesk | 500, 700 |
| Body, interface | Geist | 400, 500 |
| Literal code blocks | Geist Mono | 400 |

### GEOMETRY

| AXIS | VALUE |
|---|---|
| Radii | 6 / 8 / 12 / 16 / pill |
| Spacing | 4 8 12 16 24 32 48 64 96 120 |
| Focus | 2px ring at 2px offset |

### AVAILABLE WEIGHTS

Only the listed local faces are approved. Any other weight makes the renderer synthesize a faux bold, which prints badly and forces outlined glyphs into exported PDFs. Courier Prime is used only for literal command blocks.

### SCALE, DISPLAY

| TOKEN | SIZE | TRACKING |
|---|---|---|
| display-xl | 72 | -0.030em |
| display-lg | 56 | -0.025em |
| display-md | 40 | -0.020em |
| display-sm | 28 | -0.015em |
| display-xs | 20 | -0.010em |

### SCALE, READING

| TOKEN | SIZE | LEADING |
|---|---|---|
| body-lg | 18.4 | 1.6 |
| body-md | 16 | 1.7 |
| body-sm | 14 | 1.6 |
| body-xs | 12 | 1.5 |
| eyebrow | 12 | 0.12em caps |

PARENT

# A ShruggieTech project

Local Media Gallery declares ShruggieTech parentage. Palette sharing and typography are separate explicit choices. The approved mark and colors remain this brand's own source decisions.

A SHRUGGIETECH PROJECT

The approved mono family, uppercase, positive tracking. Visually subordinate and outside the logo clear space. Never a combined parent-product lockup.

## Load the system

```
npx shadcn@4.21.0 registry add @localmedia-gallery=https://brand.shruggie.tech/localmedia-gallery/brand/r/{name}.json
npx shadcn@4.21.0 add @localmedia-gallery/theme
npm i next-themes
```

The catalog lists installable theme and component items. For offline fonts, copy nextjs/fonts.ts and fonts/ together from the kit.

## What ships in the kit

| PATH | CONTENTS | N |
|---|---|---|
| logos/svg/ | Vector masters, every lockup and colorway | 22 |
| icons/ | Web, Android, Apple, macOS, and Windows application suites | 124 |
| favicons/ | Compatibility aliases for the authoritative web suite | 20 |
| fonts/woff2/ | Web faces plus OFL licences | 5 |
| tokens/ | CSS and JSON with measured contrast | 6 |

| PATH | CONTENTS | N |
|---|---|---|
| nextjs/ | globals.css, shadcn registry, fonts, provider | 9 |
| enforcement/ | AGENTS.md, ESLint, stylelint | 21 |
| qc/ | Contact sheets. Proof somebody looked. | 162 |
| guidelines/ | The system rendered from itself | 2 |

## Independent decisions

| DECISION | DECLARATION |
|---|---|
| OWNERSHIP | ShruggieTech owned |
| PARENT | ShruggieTech |
| PALETTE | Brand-specific emphasis and action |
| TYPOGRAPHY | House families |

COLOR ROLES

# Interface color cues

Colors for actions and states are distinct from formal identity artwork. A shared HEX is a deliberate choice; meaning also uses words, icons, outlines, or state attributes.

## Formal identity colors

| COLOR | HEX | SOURCE | USE |
|---|---|---|---|
| GALLERY JADE | #69D4BB | brand.accent.bright | Identity artwork on dark surfaces |
| DEEP JADE | #08745F | brand.accent.accessible | Identity artwork and readable accent on light surfaces |

## Approved combinations and artwork

| APPLICATION | COLORS AND ARTWORK | USE |
|---|---|---|
| CONTACT SHEET | primary in logo.full | Four equal gallery tiles with image and video cutouts |

Correct: use Deep Jade (#08745F) in approved identity work; pair the Action cue (#08745F) with a descriptive button or link label. Misuse: a lone identity swatch as the only action signal.

| CUE | PURPOSE | DARK AND LIGHT PAIRING | ADDITIONAL CUE |
|---|---|---|---|
| Action | Primary interactive action | Dark: #08745F, #FFFFFF text 5.72:1; surface 3.20:1<br>Light: #08745F, #FFFFFF text 5.72:1; surface 5.24:1<br>Source: semantic.action / semantic.action | A descriptive button or link label |
| Warning | Attention or recoverable risk | Dark: #F2BE6E, #000000 text 12.37:1; surface 10.77:1<br>Light: #805000, #FFFFFF text 6.85:1; surface 6.28:1<br>Source: brand.functional_colors.warning.dark / brand.functional_colors.warning.light | Warning text and icon |
| Error | Failure or destructive action | Dark: #F39494, #000000 text 9.47:1; surface 8.25:1<br>Light: #A03035, #FFFFFF text 7.07:1; surface 6.48:1<br>Source: brand.functional_colors.error.dark / brand.functional_colors.error.light | Error text and icon |
| Success | Completed operation | Dark: #77C9A8, #000000 text 10.70:1; surface 9.32:1<br>Light: #17654B, #FFFFFF text 7.00:1; surface 6.42:1<br>Source: brand.functional_colors.success.dark / brand.functional_colors.success.light | Success text and icon |
| Information | Neutral information or help | Dark: #8EBBFF, #000000 text 10.70:1; surface 9.32:1<br>Light: #26549B, #FFFFFF text 7.44:1; surface 6.82:1<br>Source: brand.functional_colors.information.dark / brand.functional_colors.information.light | Information label and icon |
| Focus | Keyboard focus ring | Dark: #69D4BB, #000000 text 11.74:1; surface 10.22:1<br>Light: #08745F, #FFFFFF text 5.72:1; surface 5.24:1<br>Source: brand.accent.bright / brand.accent.accessible | Visible outline and keyboard focus order |
| Selection | Selected control or item | Dark: #69D4BB, #000000 text 11.74:1; surface 10.22:1<br>Light: #08745F, #FFFFFF text 5.72:1; surface 5.24:1<br>Source: brand.accent.bright / brand.accent.accessible | Selected label or checked state |
| Disabled | Unavailable control | Dark: #69D4BB, #000000 text 11.74:1; surface 10.22:1<br>Light: #69D4BB, #000000 text 11.74:1; surface 1.64:1<br>Source: brand.accent.dim / brand.accent.dim | Disabled attribute and text |
